

Rotary dimmer with bluetooth

V-40V0220-501

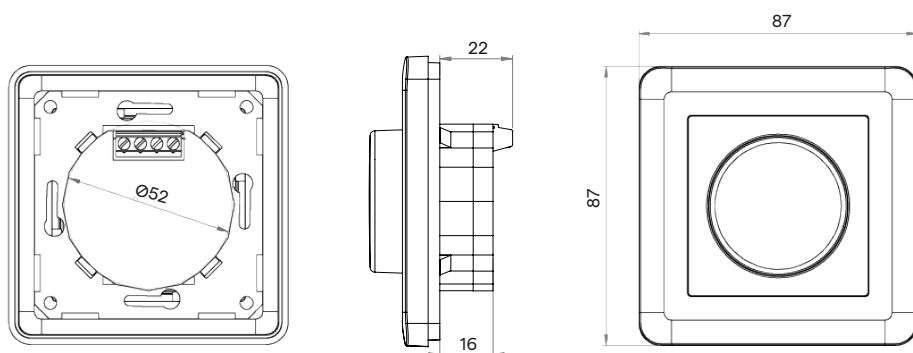

VD220WCM

VADSBO 

Rotary dimmer with Bluetooth VD220WCM

Technical specification

Designation	VD220WCM
Part number	V-40V0220-501
Power	0-200VA
Input voltage	220-240V
Standby Power	0.2W
Max	0,87A
Frequency	50/60Hz
Dimming control	Can be controlled using one or more toggle switches, knobs and/or via Bluetooth
Softstart	Yes
Dimming level memory	Remembers the last set brightness level, even after a power failure (adjustable)
Protection agains over heat	Yes, automatic reset after correction of errors
Short circuit protection	No
Mount	Mounting in in-wall box
Working humidity	0...80%, non conductive
Working temperature	-20°C +40°C
Dimensions	Ø52x22mm
Weight	110 gram
Cable area	1.0-2.5mm ² (AWG 12-22)
Housing material	Polyamide plastic
For dimming of	230V LED-lamps, electronic transformers, LED operating device, bulb 230V halogen lamps. Do not forget to take the reactive power into consideration when calculating the load.
Dimming range	1%-100%
Isolation class	IP20
Casing class	II
Approvals	CE
Standard	EN60669
Colour 1	9010(RAL) Pure white
Colour 2	9003(RAL) Signal white
